

أَكْتُبْ تَعْبِيرًا قَصِيرًا عَنْ عَائِلَتِي

أذْكُرُ فِيهِ: سُعُورِي تجاهُهُمْ، وَعَدُودُهُمْ مَعَ أَسْمَائِهِمْ
وَلَا أَنْسَى أَنْ أَحْتَرُ عَلَمَاتَ الْوَقْفِ.

A graph plotted on a grid. The horizontal axis (x-axis) has tick marks every 1 unit, with labels at -1, 0, 1, 2, and 3. The vertical axis (y-axis) has tick marks every 1 unit, with labels at -2, -1, 0, 1, 2, 3, 4, 5, and 6. A curve is drawn through several points: (-2, 0), (-1, 1), (0, 0), (1, 1), (2, 0), (3, 1), and (4, 0). There are vertical dashed lines at x = -1 and x = 3, which are labeled as asymptotes. A red dot is placed on the curve at the point (-1, 1).
