Text

Half a century ago, the vast majority of people, almost in every country, used to live in a countryside. They used to work in agriculture.

Uncle Kamel was one of them, he used to be a farmer, every morning he used to get up early to milk the cows before coming back to kitchen for breakfast. From the

time he was very young, he used to spend the rest of the day in the field cultivating different seasonal crops. He didn't use to go shopping in town very often because he produced everything he needed.

Today, uncle kamel lives in town, he works in a factory, he usually wakes up at 6 a.m before he goes to work, he buys four or five pasteurised milk, some leaves of bread and fruits; as soon as he finishes his breakfast, he goes to the factory where he works. Uncle Kamel never goes straight home when he finishes work at 4 p.m. He stays out until he finishes all his shopping for dinner.

Isaac Newton

Isaac Newton was a scientist, mathematician and astronomer **who** was born in Wools Thorpe, England on January 4th, 1643. Isaac grew up mostly alone. For rest of his life he would prefer to work and live alone, focused on his writing and his studies.

In 1661, Isaac attended Cambridge University, where he became a professor of mathematics. He spent two years -from 1665 to 1667- in study at his home in Wools Thorpe. While he was living there, Isaac was working on his theories on gravity and the laws of motion. He was also developing a new type of mathematics which he called "fluxions". Today, we call this "calculation" and it is an important type of math used in advanced engineering and science.

In 1668, Newton invented the "reflecting telescope" **which** uses mirrors to reflect light and form an image. In 1687 Newton published his most important work called the (**Mathematical Principals of Natural Philosophy**) In this work, he described the law of universal gravity. Newton died in London at the age of 84.

Text:

Hello, my name is Rose Garner. Let me tell you about my best childhood memories.

When I was a child, I used to go to my grandparents' farm in the country side, every summer. All my cousins and I had wonderful moments there. I used to wait all the year long for those days. We used to go to the river and play in the farm's yard.

Grandma and grandpa used to work indoors and outdoors. They used to raise some domestic animals, collect wood and fetch water from the river.

Grandma used to cook delicious food on stove. We used to gather in the evening to enjoy her tasty meals. Then, we sat by the fire listening to her lovely tales and stories.

Oh! How time flies. Now, that I am an adult I still think about those old happy days in my grandparents' farm.

They will stay in my heart for ever
